

SIAM

1908. Surcharges.

Ex coll. W.P.

Two Photographs of the only known copy of this Surcharge in Manuscript. Owing to the colour of the stamp great difficulty was experienced in rendering the Surcharge visible & therefore the right hand stamp has had the figures in by hand. The left hand Photograph is untouched & is added for comparison:-

It should be noticed that the Manuscript Surcharge is entirely in Siamese instead of one of the figures being Arabic. It seems probable that the explanation of the variety is that the sheet was surcharged without sufficient ink, & that the stamps on which the Surcharge failed to appear as a result, were corrected by hand.
